"The Beauty of Theory". Mario Tonin Memorial Conference

Friday, 8 September 2017 - Friday, 8 September 2017

Dipartimento di Fisica e Astronomia "Galileo Galilei"

Scientific Programme

Igor Bandos (Basque Country Uni, Bilbao, Spain) "On-shell superamplitudes of 11D SUGRA and 10D SYM theories"

Nathan Berkovits (ICTP-SAIFR & IFT Sao Paulo, Brazil) "Twistors and the Superstring"

Loriano Bonora (SISSA, Trieste) "Revisiting anomalies in QFT"

Giovanni Costa (Padova Uni) "Remembering Mario"

Alberto Lerda (U.P.O. and INFN, Turin) "Exact results in N=2 Super Yang-Mills Theories"

Ichiro Oda (Ryukyus Uni, Okinawa, Japan) "Cosmological constant problem and nonlocal approaches"

Antoine Van Proeyen (KU Leuven, Belgium) "Absence of U(1) anomalous superamplitudes in N ≥ 5 supergravities"
