

# Sixth Meeting on B Physics

Ferrara (Italy), Rettorato dell'Università, Aula Magna  
March 19-20, 2009

## Programme

For the first time, this meeting is jointly organized and attended by the Italian and French B Physics communities.

As in previous years, specific topics will be discussed.  $B_s$  physics and the determination of  $V_{ub}$  will be the subject of theory and experimental talks during the first day. The current CKM status and the reach of future facilities will be presented and discussed in a round table on the second day.

## Scientific Committee
