

Wireless Connection

For the computer network connection the participants must register, In the registration web page they have to fill also the field dedicated to the mac address of the wi-fi board of the laptop.

Moreover the participant has to send via fax (39+6+49914879) or via e-mail (alba.perrotta@roma1.infn.it) a copy of his identity document. We apologize for this request but this is an obligation stated by the Italian antiterrorism law.

For the INFN physicists we recall that the “TRIP” tool for the wireless connection is operative in Rome La Sapienza. However, before to arrive in Rome, we suggest to check with the help of the computer service of the local INFN laboratory that the laptop is configured properly to take advantage of this TRIP wireless connection.
