

28th RD50 Workshop (Torino)

Contribution ID: 42

Type: not specified

High-resolution three-dimensional imaging of a depleted CMOS sensor using an edge Transient Current Technique based on the Two Photon Absorption process (TPA-eTCT)

Tuesday, 7 June 2016 11:00 (20 minutes)

Presenter: Mr FERNANDEZ GARCIA, Marcos (IFCA-Santander)

Session Classification: Sensors with Internal Gain I
