

28th RD50 Workshop (Torino)

Monday, 6 June 2016

Sensor Design - Aula Magna della Cavallerizza Reale (14:00 - 15:40)

-Conveners: Daniela Bortoletto

time	[id] title	presenter
14:00	[13] The influence of edge effects on the determination of doping profiles using silicon pad diodes	Dr FRETWURST, Eckhart
14:20	[24] Test beam and clean room studies of ATLAS PPS modules with alternative bias rail geometries	Dr NELLIST, Clara
14:40	[8] Status of the RD50-Project "NitroStrip"	DIERLAMM, Alexander
15:00	[9] Performance of thin n-in-p planar pixel modules with and without active edge	Ms SAVIC, Natascha
