

Measuring the invisible

a symposium for

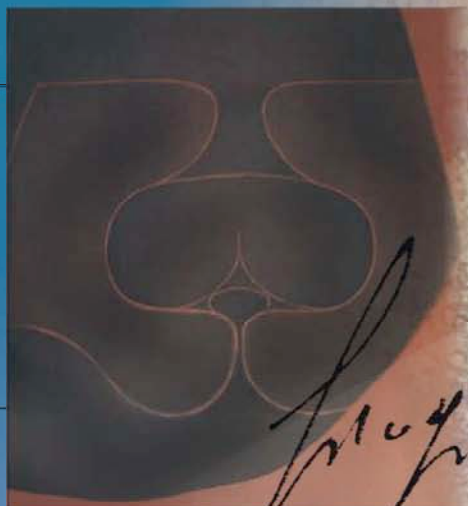

Giorgio Careri

1922-2008

September 28th 2009

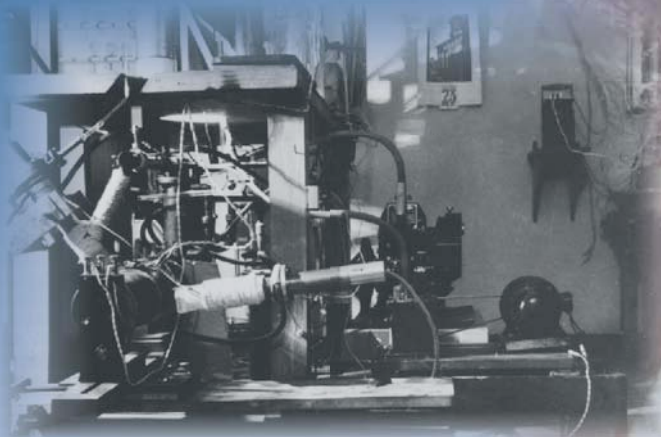

Physics Department - Room "Aula Amaldi"
Sapienza University of Rome & INFN
Roma - Italy

The Physics Department of La Sapienza wants to remember prof. Giorgio Careri, one of the leading personalities who, after World War II, contributed to shape the scientific perspective of the Department. On this occasion a lecture hall will be dedicated to his memory and friends and former collaborators will meet to remember him and discuss the many views that emerge from his work and ideas.

Prof. Careri

Giorgio Careri
Professor of Physics

SAPIENZA
UNIVERSITA' DI ROMA
