To access the LNF network and connect to Internet, participants must authenticate with a username and a password. In order to get such credentials, non-INFN participants should submit a request before coming to Frascati, otherwise we cannot guarantee to provide the internet access in short time. The request can be done by filling out a form, available on the workshop web site. Username and password will be sent to your email address.

INFN participants will be able to connect by using their INFN certificate or the username and password used to access the network at their INFN Division.

Speakers

Speakers for their presentations will use a PC and a projector. Apple users must provide a pdf version and /or check the compatibility of their talk with a PC. PDF format is preferred. PowerPoint 2003 format is also accepted (PP2007 and PP2010 files should be converted). Speakers may upload their talks directly on the Indico agenda.
