

Roma International Conference on Astroparticle Physics

June 21 – 24 , 2016

Web Page: Ricap16.roma2.infn.it

Villa Tuscolana, Frascati, Roma, Italy

RICAP-16 will be the sixth edition of the RICAP Conference. The Conference, entirely dedicated to the study of high-energy cosmic rays, has been traditionally organized by the INFN sections and Physics Departments of the three public Universities of Roma (University “La Sapienza”, University Roma “Tor Vergata” and University “Roma Tre”). The 2016 edition will be held in Villa Tuscolana. These Institutions provide both theoretical and experimental contributions, and participate to major experimental projects in the field (AGILE, AMS, ANTARES, ARGO, ASTROGAM, Auger, CTA, Fermi, KM3NeT, NEMO, PAMELA, ...).

The Conference is held every two years.
