

# RICAP-14

## Roma International Conference on Astroparticle Physics

September 30th – October 3rd 2014 – Noto SR, Italy

### Consorzio Universitario Mediterraneo Orientale (CUMO)

RICAP-14 will be the fifth edition of the RICAP Conference. Even if the acronym stands for Roma International Conference on Astro-Particle physics, the 2014 edition will be organized, for the first time, outside Roma. The Conference, entirely dedicated to the study of high energy cosmic rays, traditionally has been organized by the three public Universities of Roma (University “Roma Tre”, University “La Sapienza” and University “Tor Vergata”). The 2014 edition, organized by physicists of "Laboratori Nazionali del Sud" (INFN, Catania) will be held in Noto, a well known baroque town that in 2002 UNESCO inscribed on the World Heritage List as "representing the culmination and final flowering of Baroque art in Europe".
