

XII AVOGADRO MEETING

On Strings, Supergravity and Gauge Theories

21-23 December 2016 PERUGIA

TOPICS AND SPEAKERS

- ***Defects in conformal and supersymmetric field theories***
S. Giacomelli (ICTP Trieste) and M. Meineri (EPF Lausanne)
- ***Soft terms in string compactifications***
F. Muia (Oxford) and S. Parameswaran (Liverpool)
- ***Black hole mergers and gravitational waves***
S. Bernuzzi (Parma) and P. Pani (Roma Sapienza & IST Lisbon)
- ***Topological states of matter and non-supersymmetric dualities***
A. Amoretti (Würzburg) and G. Palumbo (Utrecht)
- ***Exact results for superconformal field theories***
M. Baggio (KU Leuven) and A. Sciarappa (KIAS Seoul)

ORGANIZERS

A. Campoleoni (ULB Brussels)
D. Cassani (LPTHE Paris)
M. Cicoli (Bologna)
S. Cremonesi (Durham)
