

Sixth Meeting on B Physics

Thursday, 19 March 2009 - Friday, 20 March 2009

IUSS - Ferrara 1391

Scientific Programme

Following the format of previous ones, this workshop will be devoted to specific topics. B_s physics and the determination of V_{ub} will be the subject of theory and experimental talks on thursday. The current CKM status and reach of future facilities will be presented and discussed in a round table on friday morning.
