

Session Program

Jun 11 - 13, 2016

Sixth Workshop on Theory, Phenomenology and Experiments in Flavour Physics - FPCapri2016

Session 3

Villa Orlandi, Anacapri, Capri Island, Italy
International Centre for Scientific Culture - University of Napoli Federico II

Sat, June 11

3:30 PM

Session 3

Session |

Location: Villa Orlandi, Anacapri, Capri Island, Italy, International Centre for Scientific Culture - University of Napoli

Co-Chair: Marco Ciuchini

3:30 - 4:00 PM

Neutrino properties determined in T2K oscillation experiment

Speaker

Ewa Rondio

4:00 - 4:30 PM

Lepton Flavour Universality in B Decays: Model Independent Lessons

Speaker

Paride Paradisi

4:30 - 5:00 PM

Recent results from the Daya Bay reactor neutrino experiment

Speaker

Rupert Leitner

5:00 PM

Sun, June 12

3:30 PM

Session 3

Session |

Location: Villa Orlandi, Anacapri, Capri Island, Italy, International Centre for Scientific Culture - University of Napoli

Co-Chair: Dr Nazila Mahmoudi

3:30 - 4:00 PM

Scalar leptoquark and B meson puzzles

Speaker

Svjetlana Fajfer

4:00 - 4:30 PM

Strategies for LFV detection in B decays

Speaker

Diego Guadagnoli

4:30 - 5:00 PM

Recent results and perspectives with KLOE-2

Speaker

Dr Eryk Czerwiński

5:00 PM

Mon, June 13

3:30 PM

Session 3

Session |

Location: Villa Orlandi, Anacapri, Capri Island, Italy, International Centre for Scientific Culture - University of Napoli

Co-Chair: Pyungwon Ko

3:30 - 4:00 PM

LNU and LFV in B and D decays

Speaker

Gudrun Hiller

4:00 - 4:30 PM

Status of Belle II and Physics Prospects

Speaker

Prof. Ryosuke ITOH

4:30 - 5:00 PM

BESIII overview

Speaker

Mr Guofa Xu

5:00 PM
