

“Compact Stars in the QCD phase diagram V” and “Working Group 2 Meeting of COST Action MP1304”

Thursday, 26 May 2016

Working Group 2 Meeting (15:00 - 16:10)

time	[id] title	presenter
15:00	[69] Introduction	TOLOS, Laura
15:10	[70] Chiral symmetry and quark deconfinement: consequences for compact stars physics	HEMPEL, Matthias
15:40	[71] Pulsar differential rotation with superfluid entrainment	ANTONELLI, Marco

Working Group 2 Meeting (16:40 - 18:25)

time	[id] title	presenter
16:40	[72] Cooling and rotational dynamics of compact stars	SEDRAKIAN, Armen
17:10	[73] Simultaneous chiral symmetry restoration and deconfinement - Consequences for the QCD phase diagram	KLAHN, Thomas
17:40	[74] Round table
