

## Discussion D3: application of accelerators

*Tuesday, 15 March 2016 12:20 (40 minutes)*

Which applications of accelerators will benefit from large current?

Which perspectives for development?

Which new collaboration themes (between participants) can be identified?

Minutes prepared by convener(s) may be posted on the website, as well as short presentations (3 slide max) received for the discussion.

**Session Classification:** Morning session (Chair: A. Faus-Golfe)
