

QCD@Work - International Workshop on QCD - Theory and Experiment

Tuesday, 22 June 2010

Session 10-B (15:00 - 16:30)

-Conveners: Paolo Castorina

time	[id] title	presenter
15:00	[36] Muonic hydrogen at finite temperature. A toy model for Heavy Quarkonium dissociation	ESCOBEDO, Miguel Angel
15:20	[37] One-loop predictions for the pion VFF in resonance chiral theory	SANC-CILLERO, Juan Jose'
15:40	[38] Analytical Approximations for the extrapolation of lattice data	MASUJAN, Pere
16:00	[39] Semileptonic Bc to P-Wave Charmonia (X_{c0}, X_{c1}, h_c) Transitions within QCD Sum Rules	SUNDU PAMUK, Hayrie
