Status of the NuPECC long range plan

Wednesday, 29 June 2016 09:30 (30 minutes)

This talk is intended to present the status of the preparation of the Long Range Plan of NuPECC. The focus will be in particular on the chapters concerning nuclear structure and reaction dynamics, nuclear astrophysics and applications.

Many scientific and technical issues discussed in this meeting represent important material for the NuPECC long range plan and this will be highlighted in the presentation.

The aim is to motivate discussions with the participants on this important work which will define the future of our field.
