

# NUSPIN 2016 Workshop of the Nuclear Spectroscopy Instrumentation Network and AGATA Physics Workshop

## Tuesday, 28 June 2016

### Radiative Beam and Instrumentation - Aula Magna (11:30 - 13:00)

-Conveners: Silvia Leoni

time	[id] title	presenter
11:30	[32] The FRIB project and prospects for gamma-ray spectroscopy	Dr GADE, Alexandra
12:00	[27] Developments and perspectives with the FATIMA array	Prof. BRUCE, Alison
12:20	[31] The PARIS array – concept, status and first experiments	Prof. MAJ, Adam
12:40	[25] Perspectives of high spin gamma-ray spectroscopy of heavy nuclei produced in fusion-evaporation reactions using GALILEO/AGATA arrays and the Recoil Filter Detector at stable and radioactive beams.	Dr BEDNARCZYK, Piotr
