

NUSPIN 2016 Workshop of the Nuclear Spectroscopy Instrumentation Network and AGATA Physics Workshop

mercoledì 29 giugno 2016

Nuclear Structure with Stable Beams - Aula Magna (11:40 - 13:05)

-Coordinatori: Araceli Lopez-Martens

time	[id] title	presenter
11:40	[3] Shape coexistence effects on isospin-symmetry breaking and beta decay of proton-rich A~70 nuclei	Prof. PETROVICI, Alexandrina
12:00	[33] In-beam gamma ray and conversion electron spectroscopy at JYFL	Prof. GREENLEES, Paul
12:30	[16] Lifetimes of nuclear states in proton-emitting nuclei from Differential Plunger measurements.	Dr. CULLEN, David
12:50	[70] Effect of high-j orbitals on the high-spin states in nuclei around Z = 82	Sig. ROY, Tanmoy
