

NUSPIN 2016 Workshop of the Nuclear Spectroscopy Instrumentation Network and AGATA Physics Workshop

Wednesday, 29 June 2016

Nuclear Structure and Reaction II - Aula Magna (17:00 - 18:20)

-Conveners: Alexandre obertelli

time	[id] title	presenter
17:00	[76] Transverse wobbling and chiral modes in lanthanide nuclei	
17:20	[42] Interplay between collective and single particle excitations around neutron-rich doubly-magic nuclei	BOCCHI, Giovanni
17:40	[17] Shape coexistence in the neutron-deficient Hg isotopes studied via lifetime measurements	Mr JOHN, Philipp Rudolf
18:00	[23] High-spin spectroscopy after multinucleon transfer	Mr VOGT, Andreas
