

NUSPIN 2016 Workshop of the Nuclear Spectroscopy Instrumentation Network and AGATA Physics Workshop

Friday, 1 July 2016

Status of GANIL 2015-2016 experiments - Aula Magna (09:45 - 11:00)

-Conveners: Silvia Monica Lenzi

| time | [id] title | presenter |
|-------|-------------------------------------------------------------------------------------------------------------------------------------|----------------------|
| 09:45 | [80] Collectivity along the neutron-magic 92Mo and 94Ru | Ms PEREZ VIDAL, Rosa |
| 10:00 | [81] Gamma-ray spectroscopy of neutron-rich nuclei beyond N=50 shell closure in the vicinity of 78Ni using AGATA coupled to VAMOS++ | Dr DUDOUET, Jérémie |
| 10:15 | [82] Towards lifetime and g-factor measurements of short-lived states in the vicinity of 208Pb | Mr RALET, Damian |
| 10:30 | [20] Lifetime measurements in "fpgd" nuclei - E663 | Dr LJUNGVALL, Joa |
| 10:45 | [2] Study of Quadrupole Correlations in the 106,108 Sn Isotopes via Lifetimes Measurements | SICILIANO, Marco |
