

Vulcano Workshop 2016 - Frontier Objects in Astrophysics and Particle Physics

Saturday, 28 May 2016

Particle Physics - Therasia Resort, Conference Room (09:00 - 10:40)

-Conveners: Roger Forty

time	[id] title	presenter
09:00	[120] TeV energy physics at LHC and in cosmic rays	Prof. PETRUKHIN, Anatoly
09:25	[121] Accelerator dark matter searches: comparison with direct and indirect searches	ANTONELLI, Mario
09:50	[122] Dark Matter search at fixed target	SPADARO, Tommaso
10:15	[123] New projects on dark photon search	KOZHUHAROV, Venelin

Particle Physics - Therasia Resort, Conference Room (11:00 - 12:40)

-Conveners: Anatoly Petrukhin

time	[id] title	presenter
11:00	[124] Nucleus Nucleus interactions and their application in medicine	BATTISTONI, Giuseppe
11:25	[125] Recent Higgs Boson Results from the LHC	DI NARDO, Roberto
11:50	[126] Flavour physics perspectives with the LHCb upgrade	CAMPANA, Pierluigi
12:15	[127] Recent selected highlight from LHCb	PEPE ALTARELLI, Monica
