Prediction, Observation and Study of Long-Distant Undamped Thermal Waves Generated in Pulse Radiative Processes

Tuesday, 27 September 2016 18:40 (0 minutes)

In the work the properties of long-distant undamped thermal waves generated in pulse radiative processes are studied.

Primary author: Prof. VYSOTSKII, Vladimir (Kiev National Shevchenko Univ, Kiev, Ukraine)

Co-authors: Dr KORNILOVA, Alla (Moscow State University, Russia); Mr VASILENKO, Anton (Kiev National Shevchenko University, Ukraine)

Presenter: Prof. VYSOTSKII, Vladimir (Kiev National Shevchenko Univ, Kiev, Ukraine)

Session Classification: PS2: Poster Session
