

Channeling 2016

Friday, 30 September 2016

W2.2: The 8th AGTaX workshop “Advanced Generation of THz and X-ray beams (11:20 - 12:35)

-Conveners: Ivan Konoplev

time	[id] title	presenter
11:20	[133] Periodic Structures Manufactured by 3D Printing for Electron Beam Excitation of Coherent Sub-Terahertz Radiation	Prof. PHELPS, Alan
11:50	[59] Tunable High-peak-current electron bunch train and its application in THz production	Dr YAN, Lixin
12:05	[113] Recently research progress on Thomson scattering X-ray source at Tsinghua University	Dr DU, Yingchao
12:20	[110] Investigation of super-radiant Smith-Purcell radiation from double grating and DC beam	Dr LEKOMTSEV, Konstantin Dr KARATAEV, Pavel
