

First Circular

Joint LIA COLL-AGAIN, COPIGAL, and POLITA Workshop
French-Italian-Polish Collaborations
April 26-29, 2016
LNS Catania

Dear Colleagues,

The second joint Workshop of the COLL-AGAIN (France-Italy), COPIGAL (France-Poland), and POLITA (Italy-Poland) collaborations will be held at LNS in Catania in the period 26-29 April 2016. This framework aims to reinforce existing collaborations and promote new contacts and exchanges between the nuclear physics communities of the three countries.

Please block these dates in your agendas.

The **scientific program** will cover the following topics:

- Facilities for stable and exotic nuclei
- Instrumentation
- Interdisciplinary applications
- Interface Structure/Reactions
- Nuclear Astrophysics
- Nuclear Dynamics
- Nuclear Structure
- Theoretical aspects in nuclear physics

A website dedicated to the Workshop will be available soon and registrations will be possible starting from January. This will be announced in the second circular.

Organizing committee (spokespersons of the three agreements)

B. Fornal, F. Gramegna, M. Grasso, M. Lewitowicz

Local organizing committee

G. Cardella, M. Colonna, E. Lanza, P. Russotto, D. Santonocito

Conference Secretary

G. Agnello, V. Potenza, LNS

We look forward to seeing many of you in Catania,

Bogdan Fornal, Fabiana Gramegna, Marcella Grasso, and Marek Lewitowicz
