

# AMB and LAMB

- AMBv4
  - Built and passed initial test
    - Few events processed correctly
  - Just a few signals are to be patched
  - More extensive tests are needed
  - Tests with AM06 are also needed
- LAMBv3
  - Being assembled at CERN with 16 AM06
  - Wait for tests of this first LAMB before assembling 4 or 5 more
    - a total of 96 tested AM06 will be needed at a certain point
