

CYGNUS-TPC kick-off meeting: a mini-workshop on directional Dark Matter searches and coherent neutrino scattering

Thursday, 7 April 2016

Directional solid and liquid detectors for very rare event detection - Aula Conversi (12:35 - 13:15)

time	[id] title	presenter
12:35	[8] A solid technique to investigate directionality: the ADAMO project	CARACCIOLO, Vincenzo
13:00	[19] Status of making ZnWO ₄ crystals	Prof. SEKIYA, Hiroyuki

Directional solid and liquid detectors for very rare event detection - Aula Conversi (14:30 - 15:45)

time	[id] title	presenter
14:30	[10] Carbon Nanotubes: the DCant project	CAVOTO, Gianluca
14:55	[11] Emulsions: the NEWS project	DE LELLIS, Giovanni
15:20	[9] Columnar recombination: the RED project	FIORILLO, Giuliana
