Explosive nucleosynthesis observations - Sala conferenze (09:10 - 11:20)

time	[id] title	presenter
09:10	[74] When Stars Attack! Live Radioisotopes Reveal Near-Earth Supernovae	Prof. FIELDS, Brian
09:40	[124] ^{60}Fe and ^{244}Pu in deep-sea archives - a link to nearby supernova activity and r-process sites	Prof. WALLNER, Anton
10:10	[73] Recent Ultra High Energy neutrino bounds and multimessenger observations with the Pierre Auger Observatory	Prof. ZAS, Enrique
10:40	[41] Limits on $^{60}\text{Fe}/^{26}\text{Al}$ nucleosynthesis ratios from deep-sea sediment AMS measurements	Dr FEIGE, Jenny
