### Progress in QCD (III) (09:20 - 11:00)

-Conveners: Joachim Bartels

time	[id] title	presenter
09:20	[125] Inclusive three- and four-jet production in multi-Regge kinematics at the LHC	CELIBERTO, Francesco Giovanni
09:40	[121] Computation of NLO processes involving heavy quarks using Loop-Tree Duality	DRIENCOURT-MANGIN, Felix
10:00	[131] What can we learn from dilepton angular distributions at Z0 peak at the LHC?	STEBEL, Tomasz
10:20	[96] Estimating the branching fraction for $B^0 \rightarrow \psi(2S)\pi^0$ decay	MOHAMMADI, Behnam
10:40	[168] Small-x resummation for DVCS, TCS and exclusive vector meson production	IVANOV, Dmitry
