

SciNeGHE 2016

11th Workshop on Science with the New Generation of High Energy Gamma-ray Experiments

*High-energy gamma-ray experiments
at the dawn of gravitational wave astronomy*

Pisa (Italy), 18-21 October 2016

The 2016 edition of the SciNeGHE workshops will be focused on the various gamma-ray sources and their observation in a multimessenger context.

Special attention will be given to the multimessenger connection with gravitational waves, both from the observational and theoretical point of view.
