

High Brightness Beams Workshop

Tuesday, March 29, 2016

Medical Roundtable (3:30 PM - 6:05 PM)

-Conveners: Castro Smirnov

time	[id] title	presenter
3:30 PM	[32] Opportunities and Challenges in Modern Radiation Therapy	SHENG, K.
3:55 PM	[33] High energy electron beam radiotherapy	MAXIM, P.
4:20 PM	[34] BNCT: a binary radiotherapy at cellular level	CEBALLOS-SANCHEZ, C.
4:40 PM	[35] BNCT: a binary radiotherapy at cellular level	MUSSACHIO, E.
4:50 PM	[36] Approaches on the role of medical physicists in implementing the hybrid technologies in Nuclear Medicine	LOPEZ, A.
5:00 PM	[37] DEVELOPMENT OF TOOLS FOR INTERNAL RADIATION DOSIMETRY AND QUALITY MANAGEMENT IN NUCLEAR MEDICINE	TORRES, L.
5:15 PM	[38] Physics and Applications of High Brightness Beams	CALDERON, C.
5:25 PM	[39] Approaches on the role of medical physicists in implementing the hybrid technologies in Nuclear Medicine	DIAZ, L.
5:35 PM	[40] Updates in small field dosimetry current situation in Cuba	YIP, F.G.
5:45 PM	[41] Image Guidance Systems for Radiotherapy Beams	ALFONSO, R.
5:55 PM	[42] Introduction of Intraoperative Radiotherapy with electron beams: the Cuban Experience	MORALES, L.
