

SuperB Physics Workshop

Thursday, 16 April 2009

WG3: Lepton Flavour Violation and New Physics Models + WG4: CP and T Violation with Polarized Taus - B213/214

(16:00 - 17:00)

time	[id] title	presenter
16:00	[64] SuperB tau physics studies: status and plans	Dr LUSIANI, Alberto
16:30	[59] Tau EDM and g-2 observables for tau pairs produced with polarized beams	Prof. GONZALEZ-SPRINBERG, Gabriel
