

# **Geometria è Fisica, a Geometrical Vision of Physics**

**Monday, 11 July 2016 - Wednesday, 13 July 2016**

**Policeta - San Rufo (Salerno)**

## **Scientific Programme**

The workshop intends to discuss the state of the art of the applications of geometry to modern physics. It will be the occasion to celebrate the 70th birthday of Giuseppe Marmo whose contribution to the development and dissemination of geometric methods concerns many different areas of theoretical physics and has influenced many researchers.
