

Nanoscience and Nanotechnology

Thursday, 29 September 2016

Nanomaterial application - Aula B.Touschek (11:30 - 13:30)

-Conveners: Nicola Cioffi

| time | [id] title | presenter |
|-------|---|-------------------------|
| 11:30 | [26] Nanostructured Membrane Bioreactor for the creation of a human Liver Tissue | Dr SALERNO, Simona |
| 12:00 | [27] Electrofluidinamics: Innovative platforms for Tissue Engineering and Molecular Therapies | GUARINO, Vincenzo |
| 12:30 | [36] Nano-biomaterials for cancer treatment: a light triggered implemented approach | Dr VARCHI, Greta |
| 13:00 | [55] Electrodecoration methods for the controlled incorporation of transition metal nanophases in organic and inorganic nano-substrates. Synthesis, characterization and applications to environmental monitoring and green processes | Dr DITARANTO, Nicoletta |
