

# Nanoscience and Nanotechnology

## Wednesday, 28 September 2016

### Nanocomposite Materials - Aula Seminari (11:30 - 13:30)

-Conveners: Jürgen Pionteck

time	[id] title	presenter
11:30	[45] Advanced polymer nanocomposites through a tailored control of graphene spatial distribution	LAVORGNA, Marino
12:00	[46] Nanostructured Polymeric Ablative Materials	Dr NATALI, Maurizio
12:30	[47] Multiscale Molecular Simulations of Polymers and Polymer Composites	GIUSEPPE, Milano
13:00	[57] GRAPHENE-BASED MATERIALS: Look underneath with Scanning Probe Microscopy	Mr LISCIO, Andrea

### Nanocomposite Materials - Aula B.Touschek (14:30 - 16:15)

time	[id] title	presenter
14:30	[62] Hot Disk and Hot Strip Technique: Tests of Anisotropic Thermal Transport Properties and Future Outlook	GUSTAVSON, Mattias
15:00	[65] Studying the reinforced composites by high-frequency ultrasound	PETRONYUK, Yulia
