

# GWDW-14

## Tuesday, 26 January 2010

**Noise analysis methods, data characterization and instrumental artifacts (Part I) - Aula Amaldi, 1st Floor (14:30 - 15:35)**

time	[id] title	presenter
14:30	[114] Coherent Target Detection in Heavy-Tailed Compound-Gaussian Clutter: Survey and New Results	GINI, Fulvio SANGSTON, Kevin GRECO, Maria
15:00	[80] Back-scattered light noise in Virgo second science run data	FIORI, Irene
15:20	[92] Robust multi-detector statistics for coherently searching for signals from coalescing compact binaries	GHOSH, Shaon
