

GDS Topical Meeting: GDS coupling to auxiliary detection systems

Thursday, January 26, 2017

Projects - Villi Meeting Room (9:00 AM - 10:30 AM)

-Conveners: Héctor Alvarez Pol

time	[id] title	presenter
9:00 AM	[13] Auxiliary detectors for direct reactions studies	Dr FERNANDEZ DOMINGUEZ, Beatriz
9:30 AM	[15] An optical chamber for fission	Dr CAAMANO, Manuel
10:00 AM	[28] ELITPC - a TPC detector for photonuclear reaction studies using intense, monochromatic gamma-ray beams at the ELI-NP facility	Dr CWIOK, Mikolaj

Projects (11:00 AM - 1:00 PM)

-Conveners: Alain GILLIBERT

time	[id] title	presenter
11:00 AM	[26] Probing the structure of exotic nuclei with protons and antiprotons targets	Dr CORSI, Anna
11:30 AM	[19] Investigation of Ceramic based Resistive Plate Chambers for high rate beam environments	Dr NAUMANN, Lothar
12:00 PM	[31] The NUMEN project at INFN-LNS: R&D activity on new detection technologies	CAPPUZZELLO, Francesco
12:30 PM	[30] The experimental set-up of the RIB in-flight facility EXOTIC	PIERROUTSAKOU, Dimitra
