

MEDAMI 2017 - V MEDITERRANEAN FORUM ON ADVANCED MOLECULAR IMAGING

Saturday, June 3, 2017

Session 4.1: Molecular Imaging in the management of prostate cancer (8:00 AM - 9:40 AM)

time	[id] title	presenter
8:00 AM	M114] H. Van der Pohel (Amsterdam, Ne) - Multimodality imaging in surgery	
8:25 AM	M115] Tobias Maurer (Klinikum rechts der Isar, TU Munich) - Shifting gears in Imaging - how PSMA-PET is about to change prostate cancer diagnosis	
8:50 AM	M116] Valeria Panebianco (Università degli Studi di Roma La Sapienza) - The role of multiparametric MR in the diagnosis and follow up of prostate cancer	
9:15 AM	M117] Paul Lecoq (CERN, Geneva) - ENDO-TOF-PET-US in the diagnosis and follow up of prostate cancer	

Session 4.1: Molecular Imaging in the management of prostate cancer (10:10 AM - 10:55 AM)

time	[id] title	presenter
10:10 AM	M118] Franco Garibaldi (AIB, Roma) - TOF-PET-MR in the diagnosis and follow up of the prostate cancer	
10:35 AM	M119] Nicoletta Protti (INFN Pavia) - In vivo ¹⁰ B imaging and dose rate measurement for Boron Neutron Capture Therapy (BNCT) using Single Photon Emission Computed Tomography (BNCT-SPECT)
