

# Perspectives in Astroparticle physics from High Energy Neutrinos

## Tuesday, 26 September 2017

### Astrophysical sources and backgrounds (14:30 - 16:10)

-Conveners: Maurizio Paolillo

time	[id] title	presenter
14:30	[29] IceCube spectral anomaly	Dr VISSANI, Francesco
14:55	[6] Expectations for high energy diffuse galactic neutrinos for different cosmic ray distributions	VILLANTE, Francesco Lorenzo
15:20	[12] Looking for sources of astrophysical neutrinos	SEMIKOZ, Dmitri
15:45	[35] Minimal models for extragalactic cosmic rays and neutrinos	KACHELRIESS, Michael
