

SM&FT 2017 - The XVII Workshop on Statistical Mechanics and nonperturbative Field Theory

Friday, 15 December 2017

Session 12 (16:50 - 18:30)

-Conveners: Guido Martinelli

time	[id] title	presenter
16:50	[71] A summary of the 2017 HPC activities in Rome	ROSSI, Giancarlo
17:10	[88] QC DLAT: new frontiers in lattice field theory for the Standard Model and beyond	GIUSTI, Leonardo
17:30	[90] QFT_HEP on the lattice	LOMBARDO, Maria Paola
17:50	[87] On usability of HPC systems	SCHIFANO, Sebastiano Fabio
18:10	[83] NPQCD: Exploring the non-perturbative properties of fundamental interactions under extreme conditions.	D'ELIA, Massimo
