

XIIth Meeting on B Physics. Tensions in Flavour measurements: a path toward Physics beyond the Standard Model

Monday, 22 May 2017 - Wednesday, 24 May 2017

Centro Congressi Università di Napoli Federico II

Scientific Programme

The general theme of the workshop is "Tensions in Flavour measurements: a path toward Physics beyond the Standard Model". There will be four half-day sessions, corresponding to the tracks shown below.

Session 1 Semileptonic decays and Lepton Flavour Universality.

Session 2 Anomalies in K physics and muon $g-2$.

Session 3 Production of pairs and multiple pairs of b and c quarks at LHC.

Session 4 Lepton sector and new starting facilities.
