

Constraints on models from the combined Gaia/ESO and Gaia surveys

Thursday, 21 September 2017 16:45 (30 minutes)

I will review the Gaia-ESO Spectroscopic Survey, focusing on its potential to deliver, in combination with Gaia data, a major advance in stellar age calibration.

Primary author: RANDICH, Sofia (INAF - Osservatorio di Arcetri)

Presenter: RANDICH, Sofia (INAF - Osservatorio di Arcetri)

Session Classification: Evolved stars and the connection to Galactic archaeology
