

Comparison of the two movie offers (IT-GR)

BigDAPHNE

The offers

Guarco interactive

<http://www.guarcointeractive.com>

- Proposing a video for the project of duration between 30 to 60 mins, possible to be divided in several parts. The idea of the video will be to give the more modern view in research today and to attract young people in the research
- The researchers will be followed for 2-3 days each in their research areas
- The technical characteristics will contain: time to introduce the country, interviews of the respective people in the project, possibility to present the documentary in social media, use of appropriate video for web (format 360°), computer graphics and animations, registration with microphones, montage audio & video, final video also for the web, in english **Cost: 5500-8000 euros**
- Cost of trips, will vary depending on the effective working days and the duration of the film **Cost: Not given**
- Extra costs for music and voice in english included in above price. **Cost: included above**
- **Suggested budget: NOT given**

Blind studio

<http://www.blindstudio.gr>

- Creation of the documentary: filming, sound, graphic design & motion graphics, post-production and montage, delivery in one full video and small separated ones of full-length in 48 mins **Cost: 12000 euros** (at most a 10% discount maybe possible ->10800)
- 4 trips (France, Italy, CERN, UK) 2-persons, 3 days (3 full-days of filming + car for equipment transfer). (No cost for the researchers Thessaloniki) **Cost: 3600 euros**
- Extra costs: 8-10% to purchase copyrights for original music, footage or extra supplies needed for filming, extra equipment may be needed, music composition ect... **Cost: 1600 euros**
- **Suggested budget: 17200 euros**

Some examples of their works

Guarco interactive

<http://www.guarcointeractive.com>

What they did (several examples, a few I recommend):

- Pi Campus 2013: <https://vimeo.com/86030887>
- Pi Campus 2015: <https://vimeo.com/141912453>
- Call InnovAction Lab: <https://vimeo.com/115468386>
- Trailer InnovAction Lab: <https://vimeo.com/127698370>

A quick comparison

Guarco interactive

<http://www.guarcointeractive.com>

Blind studio

<http://www.blindstudio.gr>

- Both the companies are small and easy to approach and collaborate with them
- Both are eager to participate in such a project
- I recontacted Blind studio this year and they confirmed that they are very much interested and since they know it early enough they can make a more detailed and up-to-date offer. They confirmed once more that **they find the project very interesting**
- The costs are not directly comparable as the Guarco does not include the trips in the estimate, however, looks like the Guarco offer is quite a bit lower
- **Some of the indicative works of Blind studio cover a wide spectrum: from documentary on the development of photography to scenes from a clinique, to e-learning at the University, to the history of film festival in Thessaloniki...**
