## **Polarization measurements for hadron beams in colliders.**

*Wednesday, September 12, 2018 3:50 PM (20 minutes)*

This talk will discuss the methods and challenges to make a high-precision measurement of hadron polarization in a high collision frequency and luminosity future electron ion colliders.

**Primary author:** Dr ASCHENAUER, Elke-Caroline (BNL)

**Presenter:** Dr HUANG, Haixin (Brookhaven National Lab)

**Session Classification:** Future Facilities and Experiments

**Track Classification:** Future Facilities and Experiments
