

International Workshop on Ion Propulsion and Accelerator Industrial Application

Wednesday, March 1, 2017 - Friday, March 3, 2017

CNR Nanotec, Bari, Italy

Scientific Program

A scheduled program is now available ([click here](#)) and frequently updated.

A graphic scheme of the workshop schedule will be found at the 'Timetable' link (to appear to this left).

After all abstract will be collected, presentation titles and abstract will be hyperlinked to the timetable, and a pdf abstract book will be available.

A list of invited speaker (alphabetically sorted) and titles is also available [see

[speakers list \(click here\)](#)

].

Ion propulsion

Accelerator industrial application

General topics in plasma and accelerators.
