

Hadron Physics and Non Perturbative QCD 2017 - Pollenzo (CN)

Monday, 22 May 2017

Session IV (16:40 - 18:40)

time	[id] title	presenter
16:40	[10] High-energy hadronic total cross sections, Wilson loop correlators and the QCD spectrum	MEGGIOLARO, Enrico
17:10	[11] Multiplicity correlation of identified particles	Mrs BUFALINO, Stefania
17:30	[12] QGP: experimental overview	Dr ROSSI, Andrea
18:00	[13] Measurement of antiproton production in p-He collisions at LHCb to constrain the secondary cosmic antiproton flux	ANDERLINI, Lucio
