

1st International Conference on Frontiers in Diagnostic Technologies

Wednesday, 25 November 2009

Energy spectrum of particles - Part II - Auditorium B. Touschek (16:45 - 18:45)

time	[id] title	presenter
16:45	[159] Neutron emission spectroscopy in fusion energy research	Dr ERICSSON, Göran
17:05	[163] Single Crystal Artificial Diamond Detectors for VUV and soft X-Rays Measurements on JET Thermonuclear Fusion Plasma.	Dr ANGELONE, Maurizio
17:15	[117] Particle Energies in a Laser Fusion Environment	Mrs NEELY, David
17:45	[121] Neutron instrumentation for spectroscopy and imaging	Prof. GORINI, Giuseppe
18:15	[157] Discussion
