

Astro@Stats 2017: Sino-Italian Workshop on Astrostatistics

Friday, 8 September 2017

A. Dent: Junior Speed Session - SC140 (16:30 - 17:00)

-Conveners: Lorenzo Maragoni

time	[id] title	presenter
16:30	[13] Covariance-Consistent Vector ARMA Modeling	BIN, Zhu
16:35	[14] Spatial and Time Clustering of the High-Energy Photons Collected by the Fermi LAT	COSTANTIN, Denise
16:40	[15] Finite Dirichlet Mixture Modeling for Classification and Detection of New Classes of Variable Stars	JOHN, Prince
16:45	[16] Model Independent Searches for New Physics via Parametric Anomaly Detection	KOTKOWSKI, Grzegorz M
16:50	[17] Line-Profile Variations in Radial-Velocity Measurements Using a Skew Normal Distribution	SIMOLA, Umberto
16:55	[18] Searching for Gamma Ray Sources in the Extra-Galactic Space: A Statistical Analysis of the Fermi LAT Data	SOTTOSANTI, Andrea
