

JENNIFER School 2018

- Start now advertising the school among students in our universities.
We accept students who already attended ≥ 3 years courses in physics.
Large part of the school success depends on your pro-active advertising !
- Advisory committee is the JENNIFER EC, which also selects the applications.
Selection criteria to be revised.
- School program to be defined with LOC. Preference for JENNIFER lecturers (you may be asked), who will be only refunded for travel and accommodation. However 1 or 2 extra JENNIFER lecturers can be considered (depending on budget).

JENNIFER Website

A bit out of date right now.

Needs some improvement, but most of all needs to be filled with our material.

PW to upload material could be shared at least with group leaders: what do you think? Each group should have a reference person for the webpage, who will be enabled to upload.
