

JENNIFER school 2018

Trieste proposal

Trieste

- A most charming Italian city, at the crossroad of Mediterranean, Austro-Hungarian, and Balkanic cultures.
- A world-class physics cluster: Abdus Salam ICTP, SISSA, University of Trieste, INFN Trieste, Elettra Synchrotron, INAF-OATS, ...
- Gorgeous summers: 20 to 28 °C, windy and dry with 9 hours of daylight and the warm waters of the Adriatic sea readily accessible
- How to get there
 - TRS: 40' by bus, served mainly by Alitalia and Lufthansa
 - VCE: 2h00 by (train+)bus, served by many major airlines

The venue

Our friends at ICTP kindly offer the Euler Lecture Hall for free and pre-reserved accomodation at the Guesthouse Adriatico.

Euler Lecture Hall

Location: Leonardo da Vinci building, terrace level

Seating capacity: 62

Phone: +39 040 2240 422

Standard equipment:

- LCD projector: one LCD projector is available for PC or video projections
- Computer: with Linux and Windows 7
- Overhead projector: for transparencies
- Microphones: two radio microphones are available—one clip-on and one handheld

top

Downtown Trieste
15' by bus

The details

- Lectures from July 30 through Aug 3, 2018 at ICTP
- Accommodation at Adriatico Guesthouse (+ overflow at Hotel Mignon)
- 25—30 students, 8-10 lecturers (ample local availability)
- Exciting options for midweek excursion: scientific/maritime-themed bike tour of Trieste and its surroundings, visit to neighboring cities (Aquileia+ Grado, Venice...).
- Fresh-seafood social dinner at Trieste Sailing club.
- 20k€ budget. Potential for savings thanks to a special INFN dedicated budget (competitively assigned)

Thanks
