

# **RD09 - 9th International Conference on Large Scale Applications and Radiation Hardness of Semiconductor Detectors**

**Wednesday, 30 September 2009 - Friday, 2 October 2009**

**Sala Convegni della Cassa di Risparmio di Firenze**

## **Scientific Programme**

#### Topics of the conference

The conference will focus on semiconductor detectors issues relevant to applications in accelerator and space research. Topics include:

- large semiconductor systems for calorimetry and tracking applications;
- radiation damage measurements and modeling;
- radiation hardness of semiconductor detectors;
- innovative detectors and electronic systems.
